EDUCATION

Bina Nusantara University (BINUS) **Jakarta, Indonesia**

Bachelor of Computer Science (GPA: 3.68/4.0) *2024–Present*

- Pursuing an Intelligent Systems concentration in 4th and 5th semesters with a focus on Artificial Intelligence and related technologies.
- Completed 30 hours of community service and accumulated 190+ Student Activity Transcript (SAT) points.

EXPERIENCE

Google

Google Student Ambassador *April 2026–August 2026*

- Selected as one of 2,000 Google Student Ambassadors from 81,000+ applicants nationwide, ranking in the top 2.5% of the candidate pool to serve as the primary liaison between Google and the campus community.
- Produced 20+ pieces of digital content between April and August, exceeding the program's minimum content requirement, to bridge students with AI technologies and share practical AI tools and insights.

TECHNO

Staff of HIMTI KIT Division *May 2025–September 2025*

- Contributed to the planning and execution of TECHNO, an orientation event hosted by HIMTI BINUS for incoming SOCS students.
- Developed a 70+ page Discrete Mathematics study guide compiling course materials, explanations, and relevant examples to support first-semester SOCS students in reviewing course content and adapting to university-level academic studies.
- Managed participant registration and coordinated event administration to support a smooth onboarding process for incoming students.

LEADERSHIP EXPERIENCE

Teach for Indonesia

Volunteer *February 2026–March 2026*

- Led a team of 5 fellow volunteers in coordinating interactive learning sessions (90 minutes/session) for two kindergarten classes totaling 30 children (Kindergarten A: 9 students; Kindergarten B: 21 students).
- Authored the session rundown and served as the primary liaison between the class teacher and fellow volunteers, also reviewing other volunteers' session plans and later confirming all details directly with the class teacher.

BINUS University

Freshman Leader *July 2025–August 2025*

- Mentored SOCS students within a 200+ student orientation cohort, also working alongside 7 other Freshmen Leaders to oversee a 64-student assigned class throughout the program and support their transition into campus life.
- Managed a dedicated sub-group of 8 students, monitoring their attendance, task completion, and assignments, achieving a 100% completion rate within the sub-group.

SPACE XI

Sponsorship and Finance Division *January 2022–October 2022*

- Led a team that secured 32 purchase orders from Sari Roti as a product sponsor and sold bread products through the sponsorship drive, 75 bundle packages and 80 individual pieces, generating IDR 2,152,000 in revenue, alongside negotiating agreements that ensured the event's financial sustainability.
- Helped raise IDR 10,050,000 in parent sponsorships for the event, personally securing IDR 3,800,000 (about 38% of the total) through direct outreach and proposal presentations.
- Prepared and presented sponsorship proposals to prospective sponsors while maintaining professional relationships with external partners.

PROJECTS

Non-Invasive Anemia Detection Diagnostic Tool | Research Paper *2026*

- Co-developed a non-invasive medical diagnostic tool using transfer learning CNNs to detect anemia from 4,466 fingernail RGB images, achieving a peak accuracy of 91.94% and 97.03% AUC-ROC with InceptionV3.
- Formulated the research methodology, analyzed experimental results, refined the manuscript, and structured the academic formatting.
- Produced the official research trailer, managing content planning, script preparation, and video editing.

LinguID: Token-Level Text Classifier & Web Application | Research Paper *2026*

- Co-engineered a hybrid token-level NLP classification system across 170,000+ Indonesian text samples, serving as ML Engineer to handle severe class imbalance across Formal, Non-Baku, and Typo word categories.
- Architected the backend infrastructure using FastAPI to serve real-time parallel inference combining a Logistic Regression ML model (40,000+ features) and a 5-layer hierarchical rule-based engine, achieving an 88.38% accuracy.
- Produced the official system demo video showcasing real-time token classification capabilities, while co-authoring the paper's methodology, results discussion, and manuscript revisions.

SKILLS

Technical Skills:	C, C++, Python, Java, HTML, CSS, JavaScript, SQL, Machine Learning, NLP, Computer Vision.
Technologies & Tools:	VS Code, Dev-C++, MySQL, GitHub, Postman, Canva, Figma, Excel, Notion.
Soft Skills:	Teamwork and Collaboration, Problem Solving, Adaptability, Empathy, Time Management, Leadership, Communication, Active Listening.

ACHIVEMENT

BINUS University | *Best Freshmen Leader for2026*

Awarded for outstanding performance, leadership, and contribution during new student orientation, selected from among 70+ Freshmen Leaders in the Computer Science program.

CERTIFICATES & TRAINING

- Self-Paced Azure AI Fundamentals - Microsoft (2026)
- Microsoft Elevate AI Training Session – Azure AI Fundamentals (2026)
